

Specification Sheet

120 GALLON CAFS UNIT MOUNTING APPLICATIONS

Compressed Air Foam

Performance

| | |
|-------------------------------|---|
| Pressure Vessel Capacity..... | 0 Gallons |
| CAFS output | 1" outlet – 20 GPM of Solution 2400 Gallons foam expansion |
| Discharge Range..... | 1" Line: 75 Feet in Zero wind |

General Specifications – Standard

| | |
|-------------------------------|--|
| Pressure Vessel Type..... | 2:1 ASME Code Head – Elliptical |
| Pressure Vessel Diameter..... | 24" |
| Fill Diameter..... | 2 ½" Diameter |
| System Hoses..... | Single wire Hydraulic hoses |
| Discharge Hose..... | 1" x 75' Hose |
| Hose Storage..... | Hose Rack |
| Expellant Type..... | Nitrogen, Breathing Air, or Shop Air |
| Regulator..... | 5000 lb set to 150 lb with set screw and cap |
| Foam Compatibility..... | Class A – B, Micro Blaze, AFFF, AR-AFFF |
| Skid..... | Iron skid w/ forklift capabilities |

Dimensions

| | |
|--------|-----------|
| Depth | 95 inches |
| Width | 48 inches |
| Height | 37 inches |
